

**Gleb
Ovsyannikov**

Head of Public
Relations Department
of PJSC LUKOIL

Q Which social issues in local communities are you managing to resolve via the social programs you are implementing?

A In 2018 we celebrated two anniversaries simultaneously: the 25th anniversary of the LUKOIL Charity Foundation and the 20th anniversary of the LUKOIL Sports Club, thus attesting to the tradition of charitable initiatives at the Company. Thanks to support programs for local communities in the areas of education, health care, culture and sport, we make a significant contribution to raising living standards in the regions where we operate. We proactively develop social infrastructure, thereby facilitating improvements in the quality of health care and educational services, and also foster greater opportunities for children and young people, including individuals with development challenges.

Total expenses on external social support in all areas amounted to around

9 RUB BILLION

Indigenous Minorities of the North

Q The Company has exceptional experience in interacting with the indigenous peoples of the North. Is LUKOIL planning any new projects in this area?

A The Company believes it is essential that its activities do not infringe on the economic and cultural rights and traditional lifestyles of indigenous peoples. Through our agreements with indigenous peoples of the North, as well as social infrastructure investments, we also support initiatives aimed at preserving the identities of indigenous peoples. As part of our partnership with the Federal Agency for Nationalities Affairs in 2018, we became participants of the All-Russian Cultural and Educational Project "Talents of the Arctic. Children".
